## School Accountability Report Card

### Reported Using Data from the 2017-18 School Year

#### Published During 2018-19

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### **DataQuest**

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### **Internet Access**

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

### Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2018-19)

Year and month in which data were collected: September 13, 2018

The Williams Act legislation requires that there should be sufficient textbooks and instructional materials for each student, including English learners, to use in class and to take home. Below is information detailing the names of the textbooks used in our core classes; their dates of publication; the names of the firms that published them; and textbook sufficiency information.

### School Facility Conditions and Planned Improvements (Most Recent Year)

Enchanted Hills Elementary School consists of 20 permanent classrooms, three permanent county classrooms, and six portable buildings. The media center, the multipurpose room, and the administrative offices are also in modular buildings.

The school site is inspected regularly to ensure that we comply with all state requirements. A custodial staff attends to the regular and preventive maintenance of the school site. They clean each classroom, the rest rooms, and the offices daily. District maintenance removes graffiti and maintains landscaping on a weekly basis.

We added Drip Irrigation to our landscaping to help maintain appearance and we are in the process of landscaping our curb planters in the front of our school.

More facts about the condition of our school buildings are available in an online supplement to this report called for by the Williams legislation of 2004. What you will find is an assessment of more than a dozen aspects of our buildings: their structural integrity, electrical systems, heating and ventilation systems, and more. The important purpose of this assessment is to determine if our buildings and grounds are safe and in good repair. If anything needs to be repaired, this assessment identifies it and targets a date by which we commit to make those repairs. The guidelines for this assessment were written by the Office of Public School Construction (OPSC) and were brought about by the Williams legislation. You can look at the six-page Facilities Inspection Tool used for the assessment on the Web site of the OPSC.

To determine the condition of our facilities, our district sent experts from our facilities team to inspect them. They used a survey, called the Facilities Inspection Tool, issued by the Office of Public School Construction. Based on that survey, we've answered the questions you see on this report. Please note that the information reflects the condition of our buildings as of the date of the report. Since that time, those conditions may have changed.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

### CAASPP Test Results in English Language Arts/Literacy (ELA) and Mathematics for All Students Grades Three through Eight and Grade Eleven

Subject	Percent of Students Meeting or Exceeding the State Standards (grades 3-8 and 11)					
	School		District		State	
	2016-17	2017-18	2016-17	2017-18	2016-17	2017-18
English Language Arts/Literacy (grades 3-8 and 11)	26.0	26.0	34.0	33.0	48.0	50.0
Mathematics (grades 3-8 and 11)	14.0	13.0	23.0	23.0	37.0	38.0

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

### CAASPP Test Results in ELA by Student Group Grades Three through Eight and Grade Eleven (School Year 2017-18)

Student Group	Total Enrollment	Number Tested	Percent Tested	Percent Met or Exceeded
All Students	298	291	97.65	26.12

Students Receiving Migrant Education Services	--	--	--	--
Foster Youth	--	--	--	--

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

**CAASPP Test Results in Mathematics by Student Group  
Grades Three through Eight and Grade Eleven (School Year 2017-18)**

Student Group	Total Enrollment	Number Tested	Percent Tested	Percent Met or Exceeded

The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

**CAASPP Test Results in Science for All Students

Note: Cells with N/A values do not require data.

Note: The 2016–17 and 2017–18 data are not available. The CDE is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The CAST was pilot-tested in spring 2017 and field-tested in spring 2018. The CAST will be administered operationally during the 2018–19 school year. The CAA for Science was pilot-tested for two years (i.e., 2016–17 and 2017–18) and the CAA for Science will be field-tested in 2018–19.

Note: Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated on both assessments.

They are members of our School Site Council and English Learner Advisory Committee. They volunteer in the classroom and serve as chaperones on field trips. Many help with our annual carnival, which has proven to be a huge success. Parents assist the media center clerk with the book fairs in the fall and spring of each year.

All parents are welcome and are encouraged to participate in our many activities during the year such as our Math and Literacy family nights, fundraising, and PBIS workshops. We continue to meet with our FIAT (Family Involvement Action Team) to plan our "Paws for Reading" events, which include parent workshops on AVID, Technology and other topics that enable parents to participate in their child's education. Our Watch D.O.G.S. and Marvelous M.O.M.S programs encourage father and mother figures to volunteer and become more involved in their students education. To become involved, please contact the school office at (951) 443-4790.

### State Priority: School Climate

### School Safety Plan (School Year 2018-19)

Enchanted Hills Elementary is a model facility, reflecting that our highest priority is the safety and welfare of our students. All site staff, administrators, teachers, and supervision aides monitor the campus, to ensure a safe learning environment for our students. The campus is a closed campus, with access only through the front office reception area; all guests, visitor, and vendors are required to check-in in the front office, where they are logged in through the Raptor System before gaining access to the campus.

Our school has an Emergency and Disaster Preparedness Plan that aligns with the NIMS Emergency System. The plan specifies procedures for dealing with fire, flood, earthquakes, lock downs, hazardous materials, disaster recovery organization, and student accountability, following a disaster. These plans are updated and reviewed annually and throughout the year, specifically on September 4, 2018. In addition, we have state-of-the-art intrusion and fire alarm systems and we routinely conduct a variety of safety drills, to ensure that our students and staff are well prepared to respond in the event of an emergency. In the event of a true emergency, our site utilizes the Blackboard Connect-Ed system and ClassDojo to notify parents.

Video surveillance cameras across our campus are a deterrent to trespassers, vandalism, and other illegal activities. They also help administrators and local law enforcement with the investigation of any crimes that occur on campus after school hours, making our school safer and more secure.

## **Professional Development (Most Recent Three Years)**

---

Professional development is centered on school focus areas, which are selected based on state and district student achievement data. Professional development topics are chosen to support first best instruction and the needs of our student population. Topics include instruction of reading, writing, AVID program implementation, MTSS and the use of technology in instruction. The District Office Staff Development Center also offers training for teachers. Teachers and support staff have attended trainings for Multi Tiered Systems of Support (MTSS) and Active Shooter Training.

School staff meets for professional development on weekly-modified school days, which allows for one hour of staff training and planning time to review student progress and plan instruction. Additional professional development is achieved through after school workshops, conference release time and individual mentoring. Teachers in need of additional support meet on a regular basis with the Academic Coach or administrators. All teaching staff is provided with the opportunity for collaboration and lesson planning time related to California Standards and our district's Units of Study. During this time, they are under the guidance of our Academic Coach and site administrators.
