The COVID-19 pandemic is rapidly impacting families and youth. The current crisis continues to prompt extraordinary challenges as well as unique opportunities of support to our students and families. As your total solutions partner, Think Together is committed to working with you during these extraordinary times to continue to change the odds for all students.

Think Together is excited to announce alternative activities that will provide the same core functions we work to provide everyday in the out-of-school time setting, such as Academics, Enrichment, Homework Assistance/ Tutoring, and Youth Development from a virtual platform.

All sessions are facilitated by Think Together program staff. Throughout the offerings, K-8 sessions align to the Common Core State Standards for ELA and Math, Next Generation Science Standards, and other relevant standards where appropriate.

Distance Learning Specifics:

Length: Live sessions -Each lesson is designed to last 30 minutes

Time: Think Together staff will deliver live lessons at specific times depending on the school's need including during typical afterschool hours. Recorded sessions will be made available for each grade level and content area.

Facilitation: Think Staff have been trained to facilitate and manage the virtual environment through the district-approved platform including Zoom or Google platforms.

Safety/Privacy: Think Together has developed strict safety measures for the virtual environment protecting our student's security and privacy compliant with legal requirements. Think Together will supply to parents the instructions on how to implement security measures for their children with their own computer controls.

Communications: Think Together will provide communication support to schools when inviting and connecting students and parents to the Distance Learning Program.
